Principle projects and grants

The Stichting Henri Moerel provides grants to a number of organisations with which it has a long-term relationship, which allows these organisations to create and maintain multi-year programs. In addition, we support projects of several individual musicians, also as part of a program of long-term relationships amongst some smaller grants.

In 2025 grants were made to a music festival, a music education program, a young musician competition and a science program. The instruments owned are on long-term loans to various organisations.

The Foundation will continue its program of support through 2026 and beyond.
